THE SOROLLA COLLECTION

A new collection inspired by the pursuit of light.

CURATORIAL NOTE

Chasing light.

More than anything else, this collection is an exploration of light.

Inspired by Joaquín Sorolla and his extraordinary understanding of sunlight, colour and atmosphere, I wanted to explore what happens when light becomes the true subject of a painting.

These works are not attempts to recreate Sorolla. They are my own contemporary response to the same fascination: the endless search for that fleeting moment when light transforms everything it touches.

EACH PAINTING IS AN ORIGINAL, HAND-PAINTED IN OIL ON CANVAS (100 × 100 CM).
